Claims 1-6 are presented for examination.

The amendments and remarks file on April 11, 2006 have been received and entered.

Claims 1-6 are rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on pages 2 and 3 of the office action of October 11, 2006.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the claims are drawn to physiological process that was well recognized to the artisan at the time the application was filed. The arguments are not well taken. The inflammation is associated with many disorders and conditions, which can affect every part of the body. The instant specification simply fails to give an adequate description of the disorders or conditions that are associated with inflammation. The claims of the instant application are not drawn to any specific disorder, and in the absence of understanding the disease to be treated, the artisan would not have accepted that applicant was in possession of the claimed invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
